Editorial

This volume represents the proceedings of the 2018 International Conference on Information, Communication and Engineering (ICICE 2018) . This conference was organized by the International Institute of Knowledge Innovation and Invention(IIKII), and held September 28-30, 2018 in Xiamen Fujian, P.R.China. The conference provided a unified communication platform for researchers in a range of topics, such as information technology, communication science & engineer-ing, computer science, electrical & electronic engineerial & automation engineering, green technology & architecture engineering, material science and other related fields. This proceedings volume enables interdisciplinary collaboration of science and engineering technologists in the academic and industrial fields, as well as networking internationally
